

## Freelancer Joining Letter by Bluepen

Greetings Dear Freelancer,

Firstly, a big congratulations on discovering India's biggest academic freelance portal. A venture started by the former generation of students, who are here to help the current generation of students. It is good to see you show interest in becoming a part of such an amazing and revolutionary ecosystem that aims to change the life of a learner forever.

To tell you more about us, we are a platform catering to 3000+ students in various domains of education prevailing not just in India, but also in Europe and North American countries. Till now we have been joined by more than 100 freelancers that have used this platform to kickstart their corporate careers or become full-time freelancers. Here you get a chance to explore uncharted waters by finding work in different domains and subjects which you probably haven't tried before. Our freelancers get to gain immense hands-on experience and develop expertise that helps them in building a strong professional profile. The essence of being a freelancer is that you are your own boss while being self-employed and having the freedom to choose your own work gigs and define your own working hours. We are proud to say that since our inception in 2020, we have released more than INR 10 Lakhs payouts to our freelancers. So you must have figured out that the opportunities are endless.

We believe in valuing our freelancers and giving them a very nurturing atmosphere to grow and prosper. All we ask of you is precision, dedication, and responsible communication. If you find yourself resonating with these values, let us tell you that the journey you and we are embarking on, is going to be a party to which you feel you have always belonged. Come let's raise a toast and make this student-centric platform the best of its kind while also striving for self-growth and holistic development.

Cheers from Bluepen
