

Swapnil Ipar

Full Stack Web Developer

An Electronics and Telecommunication Engineer with IT sales experience, dedicated to Full Stack Development using the MERN (MongoDB, Express.js, React, Node.js) stack. Skilled in HTML, CSS, and JavaScript, with a dedicated focus on crafting immersive web experiences. Additionally, I possess proficiency in the React library for creating dynamic user interfaces, as well as hands-on experience with Node.js and back-end development. My passion lies in contributing to meaningful digital solutions that make a lasting impact.

PERSONAL PROJECTS

NGO Charity Website

Developed a charity website for an NGO using React, HTML, CSS, Bootstrap, and Semantic UI for the front-end. Utilized Node.js, Express, and MongoDB for the back-end, creating a full-stack solution to manage data and enhance user experience.

To-Do List

Implemented CRUD operations in a To-Do App using React, HTML, CSS, Bootstrap, and Semantic UI.

Financial Services Website

Designed and hosted a live clone of a financial services website using HTML, CSS, JavaScript, and Bootstrap, ensuring responsiveness and a polished user experience.

Weather App

Created a weather app using React, HTML, CSS, Bootstrap, and a weather API to fetch live data and provide real-time weather information.

EXTRA-CURRICULAR ACTIVITIES

Event head for Techcarnival in departmental festival(Nexus_2018).

Event organizer for logo quiz in departmental festival(Nexus_2017).
